Why Choose Gold Experience?

Master the art of teaching teens...

Let's face it. Teaching teenagers can be fun but it's also a challenge. Not-quite-yet-an-adult and not-still-a-child is a difficult thing to be. Teens have a true thirst for knowledge, while their interests, emotions and frustrations vary enormously. The way to get them to learn and be motivated is to use the right activities and topics for them. Gold Experience takes care of all that. Fast-paced material ensures teens don't get bored and contexts such as the internet, social media, television and magazines are relevant to teenagers' lives while content-rich CLIL topics help them learn about the world.

...using the technology teens love

Teens love using the internet and other media. With Gold Experience you'll be able to add to their thirst for technology with the interesting videos taken from authentic documentaries and podcasts filmed by teens. Give them loads of extra skills practice and tests in the MyEnglishLab that goes with the course material. All their work will be automatically graded allowing you to focus on their common errors and feed back on what really matters. This way you'll be able to provide a positive learning environment in which adolescents feel happy, secure, valued and motivated to learn.

Mixed classes and preparing for Schools exams

Teenagers like to have clear objectives with goals they can achieve. The satisfaction of receiving that good grade in their language exam is enormous. Pearson has been a trusted publisher of exams materials for decades. Students will be preparing for the exam in such a fun way that they will hardly know it was 'exam preparation' they were focussing on... and they will pass the exam with flying colours. With Gold Experience, your teenage students will achieve the results expected of them. Oh, and by the way, the level B2 is in line with Cambridge First for Schools 2015 exam specifications. Job done!

PEARSON TEST OF ENGLISH

SHOW THE WORLD HOW GOOD YOUR ENGLISH IS!

Whatever your age and wherever you study or work, Pearson can offer you an English language test that can help you make progress in your life by showing schools, universities, companies or other institutions the level of language proficiency you have reached. All our PTE exams are provided in partnership with Edexcel, the UK's largest awarding body for academic and vocational qualifications and are clearly aligned to the Common European Framework.

PTE-Young Learners tests provide fun English language assessment for Primary school pupils aged from 6 to 12. They assess a young learner's ability to use English language communicatively, with an emphasis on real-life scenarios rather than on knowledge of specific language items and vocabulary.

- Four different levels of PTE Young Learners from pre-A1 to A2 level.
- Candidates can sit the exam at their own school. Ask us about becoming a test centre!

Our PTE General exam suite is designed to reward positive achievement in English language learning and is perfect for teen and adult students. Our tests integrate all four skills and focus on assessing the ability to communicate in English, rather than on test-taking skills. The tasks in the test are a natural continuation of what happens in and out of the classroom, giving you the opportunity to perform at your best.

- Recognised by universities, regional education authorities and employers around Spain.
- Already the exam of choice for thousands of Spanish students needing to accredit their level of English, especially at B1, B2 and C1 levels.

PTE-Academic is the world's leading computer-based test of English for study abroad and immigration. It assesses the real-life English skills you need at university and for living abroad, and is approved by the UK and Australian governments for visa applications as one of the most secure and rigorous English proficiency tests around.

Online and on-demand at one of our Pearson Professional centres in Spain. One single 3-hour test, and results in under 5 days.

Accepted by thousands of international academic programmes including most UK universities, as well as the most prestigious universities around the world such as Yale or Harvard.
